International Phone and Dialing Codes

Placing Calls to and From Other Countries

Calling from your accommodations can be extremely expensive and often impossible.

Your current cell phone may work in other countries, but if it does not, consider renting an international cell phone, adding international service to your cell phone plan or, for extremely remote locations or liveaboard vacations, a satellite phone. There are several Wi-Fi phone apps that can offer free or discounted rates

Some of our favorite apps include WhatsApp, Facebook Messenger, Zoom, or Google Voice.

Attached is a list of codes which will assist you with placing calls to or from many destinations popular with our clients.

Example on how to use the codes:

Dial From Code □ Country Code □ Phone Number

Ex. Calling from the United States of America to United Kingdom:

011 (US Dial from code) □ 44 (UK Country code) □ Phone Number

So the number you'd be dialing would look like this: 011441234567890

PO Box 495 Swanton, OH 43558
